

- Now a Â days chronic persistent Â diarrhea is a common symptoms in patients,
- Loose motions with mucous, occ. Abd. pains are the main symptoms, it may last from 6 months to 15 years and more.
- Repeated use of antibiotics and associated medicines cannot recover the disease completely, also it increases side effect on body. Etc.
- Patients frightened to eat food may lead to malnourishment remain for years. Patient *always* confused about treatment and its progress.
- Ayurveda has *suggested* an extraordinary treatment on it the basic principle of ayurveda is to treat the disease and complete recover the system which increases the power of colon â€“prevents the relapse of disease,
- This is most important for patients because he can live his further life safely and without fear of diet, minimal control of diet is required.
- I have treated more than 500 patients who are absolutely fine and normal after treatment. Most of the patients are suffering since 15-20 years.
- Take an advantage of the most powerful Ayurvedic treatment.
