

HYPERPE ACDT IS A GENUINE AND A VERY DISTURBING PROBLEM TO THE PATIENTS.OUT OF 100 ALMOST 60

Patients are suffering from this disease

There is no permanent remedy for this problem, in allopathic science there are very effective medicines for acute phase of it, But lot of times its not useful in chronic phase of it.

Causes--- ayurveda suggest many keen reasons for it

Manly sedentary life style, low exercise which causes slow movement of intestine causes accumulation of food induces acid and gas formation.

Liver Â sluggishness Â also one of the reasons, etc.

Ayurveda has given a proven Â treatments which removes the cause of it by root. It can increase the motility of colones, improves the liver power , reduces redness, ulcers or similar pathology, and recovers the pathology by 98 percent.

6 months treatment is also enough for the treatment.
